COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY, FEBRUARY 6, 1907.

NUMBER 13

COURT ADJOURNED

Last Saturday After Busy Session of Two Weeks.

At the term of court closed last Saturday at noon a number of important cases were disposed of, besides several minor matters.

The most important case and the one which attracted most attention was the Burton murder trial, an account of which appears in another column. On the last day of court Judge Baker sentenced the convicted man and the first of the week Burton was conveyed to Frankfort.

The next case on docket was the suit of Mrs. Mary L. Riell against Clarence Page for damages in an automobile accident. The suit was for \$1000, but the jury returned a verdict for \$125.

The case of A. N. Wells, who represents the Farmer's Home Insurance Co., of Junction City, against W. B. Peterson, Sheriff of Adair county, for alleged assault, from which he was considerably bruised up, and greatly humiliated, resulted in a verdict for \$5000. Mr. Wells suit was for \$5000 the proposition to set aside the will of the late El Burton and to take the management of the property left by the deceased from the hands of the widow overruled by Judge Baker, who ruled that Mrs. Burton was capable of managing her affairs.

COMING HERE TO LIVE.

Henry Coleman and family, of Ohio, have rented the residence property of Mrs. Mamie Moore on the corner of Chandler street and Shuck street, and will shortly remove to this residence. Mr. Coleman purchased on Market street several months ago and will build a modern home in the Spring. Mrs. Moore will leave a few days for Louisville to see her home in the future. -Lebanon Enterprise.

It is with regret that we announce the above statement is correct. Mr. and Mrs. Coleman have made Columbia their home for several years. They have made many friends who will apply feel the loss. Mr. Coleman is owner and manager of the Columbia Singletree works and will be a frequent visitor to this city.

ELOPED TO TENNESSEE.

Last Saturday night Mr. Frank Buchanan, son of Mr. and Mrs. Wood Buchanan, of Roseville, eloped to Nashville, Tenn., with Miss Ida B. Rice, daughter of Mr. and Mrs. James E. Rice, of near Romine. Miss Rice was visiting friends in our city and met Mr. Buchanan here Saturday evening and took the overland route to Lebanon, where they caught the early morning train for Nashville where we are informed, Miss Rice was a most lovable young girl, and attractive for her beauty and sweet disposition. Mr. Buchanan has a lucrative position with W. B. Belknap & Co., and is a young man of sterling character, and one we are proud to know is well in the Falls City. We offer our congratulations to Mr. and Mrs. Buchanan, and wish for them a most happy future. -Taylor Co. Recorder.

TH OF AN ESTIMABLE WOMAN.

On Tuesday night, January 22nd, at 10 o'clock at the home of her son-in-law, Arthur Robinson, who lives near the Pine Valley, the death of Mrs. Martha Ward occurred. She was 75 years old and the mother of Mrs. John Morrison, Columbia, and Mrs. Arthur Robinson, near Cane Valley, Mr. George Pollard and Mrs. Vic Butler, near Milltown. All were present except Mrs. Harriet Page, of Kansas, and Mr. Will Pollard, Texas. She was buried at Pollard's Chapel at the family graveyard. *

SPLENDID SERMON.

Rev. A. R. Kasey's Sermon last Sunday, from the text: "He that is slow to anger is better than the mighty, and he that ruleth his spirit than he that taketh a city," was timely, thoughtful and very helpful to those who heard it. He taught that, great as is the creation

of Man and important as is the perpetuation of the human species on the earth, the proper development, control and character building of individuals, is yet greater and more important. Mr. Kasey has not yet fully regained his strength since his recent illness.

BRIDGE CONTRACT LET.

Mr. George H. Gowdy, representing the Campbellsville, Muldraugh's Hill and Columbia Turnpike Co., has let the contract for the erection of a bridge across Green River to the Vincennes Bridge Company, of Vincennes, Ind. One hundred dollars extra has been offered by the turnpike Co., if the contractors would complete the work by March 31st. The Company has accepted the proposition, and will push the work.

PREACHING NEXT SUNDAY.

J. L. Atkins, Zion.
W. H. C. Sandigee, Ebenezer.
W. S. Dudgeon, Mt. Gilead.
J. F. Busch, Pink Ridge.
R. Kasey, Columbia.
J. A. Johnston, Mt. Carmel.
G. Y. Wilson, Gradyville.
T. J. Cambell, White Hill.
F. J. Barger, Glenville.
Z. T. Williams, Columbia.
J. C. Cook, Columbia.
J. F. Claycomb, Columbia.

Dr. L. E. Williams has moved his dental office back into his former quarters in the Farmers State Bank building, which has been recently remodeled and refitted for him, and now has one of the most convenient and attractive offices in Southern Kentucky. In addition to a fine equipment of dental machinery and appliances, he has just installed a fine storage battery with which to operate his dental engine, lathe, etc. The battery is not only a most useful piece of machinery, but it is also an ornament to the office. Dr. Williams is one of the best equipped as well as one of the most skillful dentists in the State, and the splendid patronage he now enjoys, is a source of much gratification to his friends. -Glasgow Times.

Mr. Steven Blaydes, of the Keltner country, died Monday morning about 5 o'clock of heart trouble. Mr. Blaydes was about 65 years of age, a member of the M. E. Church and an honorable citizen. The deceased is survived by a wife and three children, who have the sympathy of all in their bereavement.

We are in receipt of a folder from W. G. Simpson, cashier of the Citizens National Bank, of Meridian, Miss., which shows that institution to be in a prosperous condition. Mr. Simpson's bank has a capital of \$150,000, a surplus of \$50,000 and the deposits aggregate \$689,890.31.

The Ladies' Aid Society of the Christian Church expect to give a Martha Washington Tea or Reception, with the assistance of the Columbia Band, on the 22nd, at the Garage. A more definite notice will appear in our next week's issue.

Mr. S. N. Hancock and family have moved into the Z. M. Staples property on Greensburg street, and Mr. G. P. Burreas has rented the Patterson property vacated by Mr. Hancock.

The case of the Commonwealth against the Campbellsville, Muldraugh's Hill and Columbia Turnpike Company was compromised by the Turnpike Company paying \$500.

The Albany Journal edited and published by Samuel V. Breaux, is growing newer and brighter each week. Success to you, Brother Breaux.

Morris, the little son of Mr. and Mrs. Ellis Bryant was burned to death at their home near Waterview, Cumberland county, last week.

Lost: Medium sized bird dog; brown spots. Has given since January 21st. Will give \$2.50 for his return. R. L. SMYTHE, Columbia.

We thank the people of near the Cane Valley neighborhood very much for their kindness during our mother's illness.

MINNIE AND FANNIE.

STATE NORMAL SCHOOL

Mr. B. W. Sherrell, of Knifley, Ky., A Student, Gives The Following Facts Concerning The School.

Editor News:

If you will be so kind as to give me space in your valuable paper, I shall write a few words that might be of some interest to the Adair county teachers about the Western Ky., State Normal College. I am glad to say in the outset that Adair has her quota here, there being six regular appointments, the number to which it is entitled and some students that are not appointed. The Western State Normal opened Tuesday, Jan 22nd, with about 400 students and now there are about 700 students and more to come yet as a great many of the appointees have not yet closed their schools. Pres. Cherry thinks that the attendance may reach nearly 1000.

The people of Kentucky should be proud of the Western Ky., State Normal, with its wide awake President and strong faculty, it is going to do a great deal of good for the State, and every teacher in the State should take advantage of the splendid opportunities that it offers. No teacher that believes in progress and improvement will stay at home and miss such opportunities and advantages as is offered by the Western Ky. State Normal. I wish that I could in some way or other induce some more of the Adair county teachers to attend the Ky. State Normal. I feel sure that they would be benefited and could look back and say that the time was well spent, and that I don't regret it. In conclusion let me say that should you decide to attend the State Normal, you will find superior advantages here in the way of housing that you could not possibly find elsewhere. The opportunity is yours, will you take advantage of it?

B. W. SHERRELL.

ART NOTES.

There has been on display in Coffey & Patterson's window as fine a specimen of painting as can be seen in any city. Since December 22 it has shown original paintings by Columbia talent.

Mrs. John Conover had three water colors, a specimen so lucky looking one could take it, a bunch of hellebores that were beautiful and a study of a "pickaninny" head from life, that was so natural it gave great enjoyment.

Miss Alice Murrell had chrysanthemums, roses and peonies, that were true and beautiful. The peonies especially admired for rich coloring.

Miss Lettie Dunbar had two beautiful rose studies and one of peonies as tempting as that ancient fruit that was so "good to the taste and pleasant to the eyes."

Mrs. Joe Patterson now has fine landscapes in oil color.

GOOD ROADS.

By all means let us place the roads leading to our town and church in good condition. Every one admits the need of good roads, but few it seems, are willing to do more than the law requires. If among your New Year's resolutions was one to do all you can for better roads. New Year's day, 1908, will find us much better off in feelings and conscience. -St. Bernard Guide, Clementsville, Ky.

TAXES AS AN INVESTMENT.

Nothing Else Brings So Large Returns for Money Invested.

King George's tax on tea is admitted to have been unjust, and no doubt the Colonists had ground for the most vigorous remonstrance they could make, if not for the acts of the "tea party" of Boston harbor; but the incident has worked harm to the American people in that it has fostered the notion of its being a virtue to oppose taxes. The Colonists opposed taxes that were levied on them without their consent. They held, very properly, that taxation without representation is unjust. Right minded people of our times, including women who are property holders, are still of this opinion; but the prevalent sentiment against taxes per se, is unreasonable, short sighted, and very harmful. Look at the matter. Reconsider it fairly.

There is no other money a man pays out for which he gets so large a return; and this is true after all due deductions are made for the misuse of public money. Take your school tax, for example. How far would the amount of school tax paid by the average citizen go towards employing a teacher to devote three or four months in the year to the education of his children? Or your road tax. How far would the amount of road tax the average citizen pays extend to construct and maintain the roads he travels? But let one ask himself what he gets in return for his State, County and City taxes. To secure one in the peaceful possession of his property and in the pursuit of his business, he needs the services of a learned and upright Circuit Judge together with all the officers and equipment necessary for the holding of his Court; he needs the services of a whole college of learned and upright Judges who may be ready at any time to review and correct the decisions of the local guardian of his legal rights; he needs the services of a general Magistrate whose duty it is to police the whole State with the assistance of co-laborers in every neighborhood in the Commonwealth; and, before he can have all of these, he must have a sheriff to collect taxes far and away beyond and besides his own. So much for his State taxes. And the like may be said of County and City taxes. Money paid as taxes becomes the citizen's best investment.

COLORS THAT DO NOT QUARREL.

Remember that white contrasts with black and harmonizes with grey; white contrasts with brown and harmonizes with buff; cold green contrasts with crimson and harmonizes with olive; warm green contrasts with crimson and harmonizes with yellow; green contrasts with colors containing red and harmonizes with colors containing yellow and blue; orange contrasts with colors containing yellow and blue; orange contrasts with purple and harmonizes with yellow; orange requires blue, black, purple or dark colors for contrasts and warm colors for harmony; citrine contrasts with purple and harmonizes with yellow; russet contrasts

with green and harmonizes with red; gold contrasts with any dark color, but looks richer with purple, green, blue, black and brown than with the other colors. It harmonizes with all light colors, but least with yellow. The best harmony is with white.

OVER \$3,000 FOR EGGS.

The S. H. Grinstead & Co., poultry dealers purchased during the month of January, 18,960 dozen of eggs. This includes about 6,000 dozen sold them by Mr. Sam Lewis. Mr. Durham, one of the managers for the Grinstead concern, tells us that this breaks all records for January. The 18,960 dozen eggs means that about \$3,000 was left in Adair county. The hen is a mortgage raiser and should receive more attention from our farmers.

GET TOGETHER.

Several members of the Columbia Band are away from home for the Winter, consequently the boys are not taking as much interest as usual. This is not as it should be. All who are in town should take advantage of every opportunity to practice and perfect themselves in the art of music. Spring will soon be here and with it the absent members, and by united effort the Columbia Band can so improve as to make it the leading organization in Southern Kentucky. Get together boys and practice, the citizens of Columbia are proud of you and stand ready to lend assistance when need.

FORMER CITIZEN OF ADAIR DEAD.

Mr. Thomas H. Johnston died at his home at Coldwater, Miss., January 29th, 1907. The deceased was about 75 years old, and a son of the late John W. Johnston, of Adair county; a brother of Mr. Ed Johnston, of Milltown, Ky., and half brother of S. D. Johnston, of Mavianna, Ark.; R. L. Johnston, of Little Rock, Ark., and Mrs. A. I. Hurt, of this city.

Some unknown friend(?) has taken the liberty to remove from the News office a small iron bank, containing small change, and also a number of postage stamps. We have heard several business men complain of petty thievery and think it about time to put a stop to such business. Let the offending party be punished regardless of who he may be.

The Commercial Club is at work—they will be heard from soon.

IMPROVEMENT OF THE CUMBERLAND.

Locks and Dams To Be Constructed—A Great Move For This Section.

The improvement of the upper Cumberland, which is now in progress and for which an additional appropriation has just been approved by the National Congress, is of far more importance to the people of Adair county, we think, than has been apprehended by the majority of our readers. For this reason we are giving space this week to matter that will somewhat enlighten them on the subject.

It is known to many that a Lock is in process of construction that will afford slack water from Burnside to a point some fifteen miles above Rowena. The shoal at Rowena is the next point on the river where a Lock is called for by the report of the Civil Engineers who surveyed the river for the Government. But it is currently reported that the next below the one being constructed is to be omitted, and that the next below Rowena is to be constructed with the funds appropriated by the present Congress. This means that work will be begun shortly on a Lock somewhere not far from the town of Creelsboro. Of course, another will be placed not far from Burksville, and so on down the stream. When these shall have been completed, this water-way being open to navigation by any one who may see fit to launch a boat upon the river, we shall have the cheapest possible means of getting to market; and, should we secure a swifter way of reaching the market, this will always operate as a wholesome check on unreasonable freight rates, which is a matter of the first importance.

Now, it goes without saying that the Southern Railway and the L. & N. Railway are not operating their lines in the spirit of charity organizations; nor is either of them ready to turn over to the other the immense business of this district without an effort to retain a fair share of it. Nor yet would they be willing to see the tonnage of Adair, Russell, Clinton and Cumberland float off down the river to Nashville without making an effort to catch at least a part of it for Louisville and Cincinnati. So, it does not require much sagacity to perceive that, to test the love of our rural suitors, Louis and Cincy, we should set our cap for Nashville.

FOR SALE.

My store house and stock of goods and dwelling about 2 acres land; a fine stock and tobacco barn on the premises in the town of Gradyville, Adair county, Ky. I have a good going business, any one wishing to go into the goods business can find a better location in Adair county, Ky. My reason for selling, I am going West. Will sell as a whole or in part. No one has ever done business at this stand but what has made money. I refer you to J. T. Kemp, Bradfordsville, Ky., J. N. Coffey, Columbia, Ky., or H. C. Walker, Gallion Ala., or E. H. Hughes, Quanah Texas. If you mean business address me at Gradyville, Ky.

PORTLAND CEMENT

Has Become a Great Favorite With Engineers and Architects in Construction Work.

The importance of Portland Cement as a building material and the rapidity with which its use in construction has come to the front in recent years, are matters of which our readers probably know very little. Yet, we have cause to be greatly interested in the subject. Timber, the building material on which we have hitherto depended, is becoming scarcer every day. Iron and steel, which also are limited in amount and expensive to transport, are in the hands of monopolists. The time is not far distant when the demand for Cement, great as it is even now, will be very much greater. We start the question, In what way will that demand affect us? The purpose of this article is to answer this question.

In 1890 the total output of Portland Cement in the United States was 97,100 short tons. Since then the output has gradually increased year by year till, in 1906, it reached the enormous amount of 8,400,000 tons. Churches, Government buildings, Manufacturing plants, bridges, abutments, viaducts, sewers, pavements, dams, retaining walls, and many other erections are now being constructed of this material; and so satisfactory has it proved, it has become a favorite with engineers and architects throughout the whole country. The reasons are, it is comparatively cheap, and it is practically everlasting.

Up to the present time the State of Pennsylvania has had almost a monopoly of this industry, for the reason that the points where the materials required for its manufacture can be found under first class conditions in every particular, are very few; and Pennsylvania has had almost a monopoly of these favoring conditions. A particular variety of limestone, a particular variety of clay, and transportation facilities, are the required conditions.

Given a first class road to the Cumberland river and all the required conditions are met in Adair county.

All the citizens of Adair have to do is to think; and, "As a man thinketh, so is he." The Congress of the United States has granted an appropriation of over a half million dollars for the improvement of the upper Cumberland. This means cheap transportation to market for cement, lime, bricks, tiling, building stone and lumber. And to what markets? Those of all the towns and cities along the rivers to the Gulf of Mexico; to the Isthmus of Panama where enormous quantities of these materials will be needed for the next ten to fifteen years; and to the markets of the world.

Shake that man from the country who is not a member of the Columbia Commercial Club, and tell him to wake up! Things are going to happen that he is interested in, and he will thank you. Give him a copy of the News and invite his co-operation in an effort to better our commercial facilities.

The clay manufactured into cement, tiling, pottery and bricks in the State of Indiana annually realizes to that State not less than three times as much money as the entire lumber business in Kentucky brings into our State.

TWO YEARS FOR BURTON

The Jury Out Only About Three Hours and Returns Verdict As Above.

After being in their room three hours, the jury in the case of the Commonwealth vs. Elijah M. Burton for the killing of James Dooley, returned a verdict of manslaughter, fixing the defendant's punishment at two years in State penitentiary.

It will be remembered that on Sunday, August 19th, of last year, Dooley was shot and almost instantly killed by Burton at the former's home near Vester. The circumstances which led up to the shooting were about as follows: The principals had been out for several years, and never lost an opportunity to cast epithets at each other. On Saturday, the trouble was renewed, both sides using many vile names, until Dooley fired at Burton, hitting two of Jim Powell's sons. It is claimed that Burton fired into Dooley's home, breaking window lights, but injuring none of the occupants. The trouble quieted down at that time, but early Sunday morning, as Dooley was entering his

yard gate, Burton fired inflicting the death wound. Both sides tell a different story at this point. The defense claims that Burton opened his store door as Jim was entering his gate, and the former noticed that Dooley was raising his gun to fire. The prosecution, though Miss Grace Dooley, the only eye witness, says that the deceased was shutting his gate when Burton appeared in his store door, firing the fatal shot.

The trial was begun on January 23rd and occupied eight days. Probably no trial within the past several years has been witnessed by a larger audience or with greater interest—the court room being filled at every session.

Both sides were represented by able counsel and the case was hotly contested at every point. The defense was represented by Judge W. W. Jones, James Garnett and Rollin Hurt and the prosecution by Commonwealth Attorney Huddleston, County Attorney, Smythe, Winfrey & Winfrey and W. L. Malone, of the Campbellsville bar.

THOROUGHBREDS BEING PLACED.

Adair County Should Take Steps to Secure One of These Fine Individuals.

Several weeks since we published an article from the American Breeders Protective Association which has established a Bureau to place thoroughbred stallions in various sections of the State to promote the quality of horse flesh.

It will be remembered that the article above referred to gave out that these fine stallions would be placed in the hands of good farmers, who would stand them at nominal fees; that the Representatives of each county or district would be asked to help select a suitable and conveniently located citizen to take charge of the animal.

Since the first announcement, the work of placing the thoroughbreds has begun, and our sister county, Clinton, has secured "The Virginian," a fine individual, which is in the hands of Thomas Brents, Ida Ky. We see no reason why Adair county should not be furnished one of these stallions, and feel confident that if our horsemen will take up the matter we shall soon see a famous Bluegrass thoroughbred within our borders. Who will take the initiative to secure one of these horses?

A COMPLIMENT.

The following excerpt from a letter to C. S. Harris from the Louisville Commercial Club, by R. E. Hughes, Secretary is self-explanatory:

"We were very much gratified to note the organization of a Commercial Club at Columbia, and to see the great start it has received. We wish you every success, and if we can assist you at any time, do not hesitate to command us."

Give your mite to the Adair county fund for the Kentucky Exhibit at the Jamestown Exposition. If you haven't enough patriotism and love for the old State to open your pocket book to this worthy cause, get behind the barn and give yourself a good kicking, then move out of the state.

It has been our pleasure to have quite amount of business, relating to gathering news, from the records of the Adair Circuit Clerk and we find that Deputy Hancock is as obliging and painstaking as it is possible for an official to be. The work in the Circuit Clerk's office is always up to the notch.

Mr. James A. Dulworth, a prominent citizen of Green county, whose home is near Camp Knox, is hustling for the pike to come his way. Mr. Dulworth informs us that he secured \$5,000 and the right of way through the farms in his neighborhood Green county should feel honored to have such a progressive, wide-awake citizen as Mr. Dulworth within her borders.

TO TOBACCO SHIPPERS.

We wish to state to our friends through out the tobacco growing sections that we are not connected, directly nor indirectly, with any other warehouse or warehouse company.

We conduct a "STRICTLY INDEPENDENT" Tobacco Warehouse Commission Business and respectfully solicit our patronage. C. A. BRIDGES & Co., Props., PICKETT TOBACCO WAREHOUSE, Louisville, Ky.

ADVOCATES PIKE TO RIVER.

A Pellyton Man Thinks it a Much Better Proposition Than Any One Yet Mentioned.

I notice quite an amount of comment—mostly favorable, on the proposed pike to Greensburg. Of course this would be a good thing, but in my judgment the proper road to build is from Columbia to the river. Freight, by water, is much cheaper, and even should drayage from the county seat be increased sufficient to equalize the rates, we would be much better off with two outlets.

Then again, we would stand a much better opportunity of securing a railroad. So long as the L. & N., which we have been feeding for over a quarter of a century, can get the traffic of this country without expending capital in the construction of a road we may rest assured they will remain idle. But let the freight business of this section reach the Southern via the river and it will not be long until the first mentioned system will get busy. Construct good roads all over the county, and a pike to Greensburg, but by all means let's have the pike to the Cumberland.

J. A. HARDIN,
Pellyton, Ky.

SPEAKS OUR SENTIMENTS.

The class that builds up a city and enjoys life and makes the best citizens are the enterprising and liberal men who believe in living and letting others live and who, when they get a dollar don't squeeze it until the Goddess of Liberty feels as if a corset laced to the last notch would feel more comfortable. Such squeezing is what causes hard times and stops the circulation of the American Eagle. If it were not for our broad-gauged and enterprising men it would be impossible to build up a prosperous city.—Harrodsburg Herald.

A HINT TO THE WISE.

Our Correspondents, ever alert and always punctual, strictly impartial and always mindful of the demands of good taste in what they report, deserve our gratitude as well as the thanks of their neighbors and our readers generally. They know that this sentiment is sincere. Now, to make their efforts yet more useful, we venture to draw their attention to a weakness reporters—a weakness especially noticeable in reporters on the great dailies—against which we wish our representatives to be on guard. We refer to the prevailing disposition to fill the columns of the papers with endless trivialities and insignificant details in connection with the mention of notable or worthy persons.

If there is a general demand for such matter, it only argues that there is a prevailing morbid taste that requires a daily mention of just how the several members of the Thaw family, for instance, came into the Court room and took their seats; that demands a telegraphic report of every notable criminal's daily bill of fare; that gives hours to the reading of the prattle of cranks and crooks who, if met face to face, would not be esteemed worthy of a passing nod; and that distributes in the homes of millions of decent people the filth of the bannion, the profanity of the bar-room and the off-scouring of the Police Court. We are not afflicted with anything of this sort, but we have noticed a tendency to mention trivialities in detail.

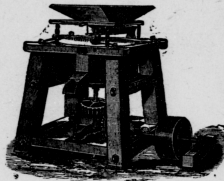

Hence, we make a suggestion. Instead of reporting that "Mr. G. Immod, one of our best citizens, was unable to get to Columbia last week," wait till this same good old citizen "mends his ways," and then say: "Mr. G. Immod, having rallied his neighbors to his assistance, and having repaired the impassable places in the road near his farm, was able to take his wife with him in a buggy to Columbia last week." See? That is well enough; but this is more deserving of notice; and the good man is all the more welcome in Columbia, and his name is the more cheerfully printed in the News, because he has done a helpful deed and has brought his wife along to share in the benefits of it. In brief and in fine, let us hear the good and useful things our countrymen are doing; and we are sure that no correspondent need ever lack for matter or be in the least dull, provided he has eyes to see what worthy and helpful things his neighbors are doing.

THE WAR CLOUD.

The latest advices as to the Japanese demands and the attitude, and that of our Government, indicates that the situation may become more threatening before the incident is closed. The order for the expenditure of \$1,000,000 on the Oregon, now in Pacific waters, and for 75,000 shells for use on warships, is significant, especially when considered in connection with the appropriation of a large sum last week for the fortification of Hawaiian ports.

The most informing public utterance we have seen lately is that of Senator Perkins, of California, in an address before the National Geographical Society at Washington. His view, in brief, is that we have laid the foundation for supremacy in the Pacific, and that the Japanese have aspirations and purposes as to their expansion and domination of that quarter of the globe; and that, sooner or later, whatever may become the occasion of it, a conflict with this people is almost inevitable.

Senator Perkins further points out that "real expatriation is a condition practically impossible to the Japanese mind." Wherever Japanese may be, however far from the throne of the Mikado, they will remain a consolidated unity and will support the aspirations of their race. The Senator does not go so far as this, but we may add that their characteristics of conceit and deceit will become more and more manifest to the world shortly, being kept in restraint hitherto by their desire to be recognized as one of the highly civilized nations of the earth and, as such, entitled to all the benefits of the "favored nations clause" in treaties with other countries.

In Congress last week the House Judiciary Committee decided by a vote of 9 to 7, to report favorably on the Littlefield bill which makes liquors in inter-state commerce subject to the laws of the State into which they are shipped, and provides that C. O. D. delivery of liquor in a prohibition section is the same as a sale at the place of delivery.

It is stated that the work of "crawfish" in the levees along the lower Mississippi has occasioned some of the damage done by the flood. There is another species of backward tendencies, known in almost every community, which operate in ways that are hidden and that are often responsible for great commercial loss and inconvenience.

The Somerset Times, Woodson May and Cecil Williams, Editors and owners, a new Kentucky weekly, comes to us with Twentieth Century freshness. Both in its literary and advertising departments, it appears to be making a start that promises usefulness and success. We "kautau" and gladly exchange.

"Who insulted Billy Patterson?" is not to go begging for an answer as goes the question "Who struck Billy Patterson?" the former interrogatory having been judicially answered in the Circuit Court here last week.

Senator Clapp has introduced a bill to create a corporation to operate the oil fields of the Choctaw and Chickasaw countries. This is a sort of a Clapp trap for the Standard Oil Company, of course.

The Somerset Times says it will stand for the "principals" of the Democratic party, and it mentions W. J. Bryan as one of them. This is regular, and we shall expect the Times to stand pat.

"HONOR TO WHOM HONOR IS DUE."

Mrs. "Stonewall" Jackson has declined a pension of \$100 per month during the remainder of her natural life.

Col. Lafe Green, who died Jan. 28th at his home at Falls-of-Rough, a well known and honored son of Kentucky, represented Ohio county in the State Senate over forty years ago. This one term in high office quite satisfied him, and he was content ever

after to live the "simple life" on his vast estate.

The Press of the country has applauded the message of Mr. Hughes, Governor of New York, for the independence it breathes throughout. Even his political opponents admit that it reflects the popular sentiment in the State rather than the wishes of the political bosses in his own party. Such independence is so novel in these times as to attract very general attention.

James J. Hill and Edward H. Harriman have become each a Colossus of Roads; but if we consider their methods and the results of their efforts, including the esteem in which they are held by their countrymen, a comparison can be made only by the differences which appear. Hill has built railroads and a great western empire while enriching himself; Harriman has manipulated stocks and bonds and has united many hitherto independent lines of road into one great system. The one has given his nation more than he himself has acquired; the other has acquired enough to be in a position to hold up the nation at pleasure and to further satisfy his enormous greed.

The case of Governor Sweetenham, of Kingston, Jamaica, illustrates the truth too little considered by Governments, that it requires a big man to fill a little station where inter-national lines and interests meet. It was his littleness that betrayed him into the deplorable blunder he made, for a larger soul would not have suffered from the thought that Admiral Davis was getting an undue share of the credit for meeting the dread emergency. The illustration goes much further; for, as the direct result of his egotism and folly, Admiral Davis is thanked and honored and Governor Sweetenham is reproved and despised by the nations concerned and throughout all the world. Thus selfishness over-reaches itself; and this occurs so often in human history as to show that it is not even good selfishness to be too selfish.

Bishop Enos Nuttall, of the Kingston Relief Committee, who sent a message of thanks to President Roosevelt last week and who is now "Lord Archbishop of the West Indies," began his ministerial career as a Methodist preacher. He is large, handsome and "clever," and is a very interesting personality. How

he could see his way to go back to the knee breeches, apron and bonnet of an Anglican bishop may not be at once apparent to the average Wesleyan; but, no doubt, Mr. Nuttall finds his sphere of usefulness all the larger for the tights he wears, though his "Lordship" over the disestablished West Indian Episcopal churches does not entitle him to a seat in the upper House of the British Parliament.

All English notables do not feel toward Americans as Governor Sweetenham seems to feel. In 1833, when the City of Kingston was nearly destroyed by fire, Sir Anthony Musgrave was Governor of Jamaica. When the fire had raged for forty eight hours and all hope of saving the business portion of the City was gone, Sir Anthony, happening to meet an American well known to him, said: "Mr. Azbill, you know the Americans, you see the situation and know how to make known to your Country our needs. Send such an appeal for assistance as you may think proper."

A Charity Organization had been formed only a few days before the fire, of which Lady Musgrave was Patroness and Mr. Azbill was Secretary. It happened in this way that an American became Secretary of the Relief Committee that dealt with a Kingston calamity but a little less destructive than the one now afflicting that City. Lady Musgrave was a daughter of Dudley Field, of New York, and no individual has done more to win for Americans the love and esteem of the people of Jamaica than did this estimable lady.

CURRENT EVENTS.

In the notorious Harry K. Thaw case, as in a half dozen others throughout the country, acquittal is sought on the ground of the "unwritten law" and a plea of insanity. That rich young scape-grace says he expects to go free after having been vindicated in open Court. The chief reason for the general interest in the trial is, that the Court, before which he is being

tried, is itself on trial.

The broken relations between the French Government and the Vatican, the strained relations between the Catholic bishops of France and the several other parties to the controversy over the ownership and use of properties which were in the hands of the Church before disestablishment, and the sympathy of Catholics throughout the world with their French brethren, continue to be the subject of transatlantic dispatches and of world-wide interest. Meanwhile, the claims, aims and spirit of the French Government, which appears to have the support of the French nation, is becoming better understood everywhere.

The President's move to appoint a negro to be Surveyor of Customs at Cincinnati. Senator Foraker's home, is one of shrewd diplomacy, to say the very least.

If Foraker's attitude to the President in the Brownsville affair has the support of his constituents, no opposition is to be expected from him nor from them. It is said that Booker T. Washington has been consulted, and the fair inference is that if a negro is appointed, the appointment will be pleasing to all American citizens of African descent. So, Senator Foraker, the people of the Buckeye State, the negroes and our Teddy, will all be delighted.

The indications are that the relations between America and Japan have reached a most critical state. A deputation from California is now in Washington and has been in conference with the President and members of his Cabinet. The deputation has telegraphed to the President of the San Francisco Board of Education to come to Washington for further conference. Secretary Taft has asked for, and has been granted, an appropriation for the fortification of Pearl Harbor and the Bay of Honolulu, the immediate action of the Congress being regarded as very significant. It is also reported that large numbers of Japanese soldiers—veterans of the war with Russia—are in the Hawaiian Islands and are secretly organizing military companies.

FIFTY-TWO INDICTMENTS

Returned By The Grand Jury at
Term of Court Closed
Last Week.

At the term of Circuit Court closed last week the Grand jury returned fifty-two indictments, classified as follows:

Trespass, 2
Malicious Shooting, 1
Breach of the Peace, 22
Retailing Liquor in Local Option District, 2
Gambling, 2
Reckless use of Weapons, 4
Malicious Cutting, 3
Liquor to Minors, 2
Weapons, 5
Disturbing Assembly, 4
Adultery, 1
Nuisance, 1
Detaining Woman Against Her Will, 1
Petty Larceny, 1
Malicious Striking and Wounding, 1.
It will be seen from the foregoing list that there are only two indictments for the sale of intoxicating liquors, which, in our judgment is something wonderful, considering the fact that only a few years since at one sitting of the jury twenty to thirty indictments would be found for this offense.

Lindsay Lucas, of Casey county, who was examined before Commissioner Winfrey last Fall, on a charge of retailing liquor and held to the Federal jury, was released from the Louisville jail last Tuesday evening after serving thirty days. Lucas took the insolvent debtors oath and was freed from the \$100 fine.

The shipping of rough lumber from Columbia has practically been abandoned since the burning of the Green River Bridge. Nothing could have been done to injure the business of Columbia and vicinity that would have served the point better than the destruction of the above bridge.

Luther Gideon Sneed, who is wanted here to serve a six months term in the County jail, has made his way out of the county. Luther Gideon has been in jail here or in Louisville for about one year and his departure causes no regret.

For several weeks we have called attention to the fact that Adair could secure a thoroughbred stallion by getting the help of the Representative from Adair and Cumberland to name some suitable man to take charge of the animal.

James Helm, of Desda, Clinton county, while rafting logs in the Cumberland river was fatally injured by a saw log rolling over him, breaking both legs and injuring him so badly that it is said he cannot live. Mr. Helm is about forty years old and single.

February, according to the Weather prophets, will be one of the greatest storm months on record. In this section we are promised heavy rains, changing to snowstorms and blizzards, followed by cold waves and high winds.

Sheriff W. B. Patterson and his force of Deputies made a record for rapid and efficient work during the term of Court recently closed. When a paper is turned in, our Sheriff serves it—if the man is on the map.

Dr. A. M. Rowe has ordered the News sent to Rowlett's, Ky., instead of Warsaw, Ind. The many friends of Dr. and Mrs. Rowe, nee Miss Hattie Rowe, will be glad to learn that they have returned to Kentucky.

"Always In The Way"

PLAYED AT MARINE'S FUNERAL.

The Cablenews received a letter from Olongopo written by a private of Marines, in which the statement is made that at the funeral of a Marine, the Marine of four in charge, ordered the band to play, "Always in the way." The writer said that the Marines were enraged at the insult.

We don't object to hikin through a hundred miles of sun,
We don't object to chargin' up a mountain on the run,
We don't object to livin' on a soldier's ration straight,
We don't object to dyin', but to reach the Goldee Gate
With ragtime funeral marches when the band is made to play—
It does sound a little awkward—"You're always in the way."

We don't ask no favors from ye; you may do the worst ye can,
For Congress can't make gentlemen where God has failed on man.
To h— with all this sicknin' rot—it's bad air, dry and warm,
These rotten gags about respect that's due the uniform—
When shoulder straps can make a man lose half his little head
And make him joke the holmes that wraps his country's dead.

Yes, d— ye, we'll salute ye, and we'll all say, "Yes sir," too,
But we salute the shoulder straps; we wouldn't speak to you.
Ye're farther down beneath us than a dog a nigger owns,
Ye're dirtier 'n a buzzard pickin' flesh from dead men's bones.
When the flag is on our coffins ye will tell the band to play
That good ol' ragtime hymnal, "You're Always In The Way."

You've stolen from a dead man the last solemn funeral rite.
You've put a daub of mud upon the flag for which we fight;
You ain't disgraced the service but ye know ye have, at least,
Showed how little man was in ye an' how near ye are the beast.
Few men that hold commissions now would tell the band to play
The ragtime dancehall music when a soldier's laid away.

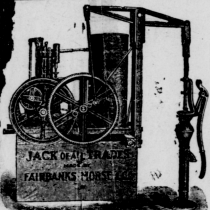

You're rotten, Mister Officer, I don't know what's your name,
Nor who it was that raised you, but you're rotten all the same.
I hope they'll rid the service soon of all such men as you:
I'll give the service credit now of havin' very few.

Per d— the men who wear the straps and tell the band to play
At the funeral of a soldier, "You're Always In The Way."

A. L. PRICE, for the Cablenews.

The above poem was sent us by Mr. W. R. McInteer, a son of Mrs. Julia McInteer, of Breeding. Private McInteer is a member of the 3rd U. S. Cavalry stationed at Camp Stotsenburg, P. I.
